

# Harris Weeks

Senior Engineer at Intuit

900 Uccelli Drive  
Redwood City, CA 94063  
(404) 931 - 7724  
root@hweeks.com

## EXPERIENCE

### **Intuit, Mountain View — Senior Software Engineer**

Sept 2016 - Current

Designed and built out a central express server that allowed easy internal extension and the accompanying tools for local dev and creation

Designed and built a design data service that exports design values. The admin panel was a k8s served React/express/graphql/mongodb app

Helped manage and create spinnaker, kubernetes, and argo cd based pipelines for release and rollback

Created and maintained CLI tools focused on developer productivity through expressive and empathetic interfaces and documentation

### **Apple, Sunnyvale — Web Application Developer (Contract)**

April 2015 - September 2016

Built and maintained internal asset tracking software that all retail locations used daily

Designed and built various dashboards using D3 for asset health tracking, errant device status, and inventory sanity

Worked in CoffeeScript, Backbone.js, and selenium

### **WebMD, Atlanta — Associate Web Developer**

October 2014 - March 2015

Maintained the symptom checker tool, a Backbone.js application

Pushed new templates for marketing pages and articles via an XSLT transforming CMS used internally

Worked on the WordPress powered blogging platform, adding shortcode tools and other needed templates

Helped to teach and implement Github company wide
